

# Patient Portal now available with Follow My Health

Follow My Health is a mobile app used as your way to view, access, and communicate with our staff regarding your child's health and visits.

Our doctors are integrating this tool as their main way of communicating with parents and would like everyone to be able to use the tools that Follow My Health provides, such as:

- **Email and text reminders for appointments**
- **Online prescription refill requests**
- **Access and printing of immunization records and health forms**
- **View and pay family bills**
- **Send email messages to our office staff and doctors**

Provide your information below and you will receive an email invitation
